## 2020/2021 Student Accident Insurance and COVID-19 Adjustments

August 10, 2020

Dear Parents,

The safety and well-being of our students is of critical importance to all of us and we do our best to protect them. Even so, accidents happen and medical treatment can be costly. It is for this reason that our schools carry blanket Student Accident Insurance on all enrolled students.

The **“School-Time”** plan is designed to help parents pay for eligible medical expenses resulting from injuries sustained by their children while participating in covered school activities. Details regarding the program for the upcoming 2020/2021 School Year are contained within the accompanying brochure. You are encouraged to carefully review the brochure PRIOR to your child getting hurt. Coverage under the 20/21 School Year *School-Time* plan went into effect on August 1, 2020. Claim forms and filing instructions can be provide by your school at the time of reporting any incident or claim.

### **New This Year - COVID-19 Adjustments**

The pandemic has created huge challenges for all of us. Our student insurance administrator, Myers-Stevens & Toohey (MST) has worked with the underwriting insurance company to implement a number of adjustments related to COVID-19 to better serve our families. They include:

**Coverage for injuries occurring during “virtual”, “remote” or “distance” learning at home** – During such time that schools are required to continue COVID-19 mitigation protocols, students who are insured under voluntary-purchase or school-paid blanket *School-Time* plans and/or *Class II/School Activities Catastrophic* coverages will continue to be covered for injuries sustained while participating in School sponsored and organized learning activities at home. All other policy terms and conditions apply.

NOTE – Students enrolled in any of our optional *Full-Time Accident Only, Worldwide Exchange or Student Accident & Sickness* plans are covered for injuries 24/7.

**COVID-19 testing** - If an Insured suffers an Injury or Sickness that results in required testing for COVID-19 and if the claim is deemed payable in accordance with the policy, we will not apply any cost-sharing provisions to the COVID-19 diagnostics/test rendered (e.g. deductibles, co-pays, etc.). If further treatment is required, we will continue to cover eligible charges subject to the terms and conditions of the policy.

**Coverage for telemedicine** - If an insured student suffers a Covered Injury or Covered Sickness and seeks medically necessary care via telemedicine, we will cover related charges as we would for care provided in a physical office or facility setting in accordance with the policy.

**Claim reporting and filing** - Claim forms and filing procedures have been modified to make it easier for parents to file claims while schools are physically closed due to COVID-19. Instructions and the claim form are attached. They can also be found on the Archdiocese of Portland website at <https://archdpdx.org/property-and-risk-management> , scroll down to the heading “Reporting a Claim”.
